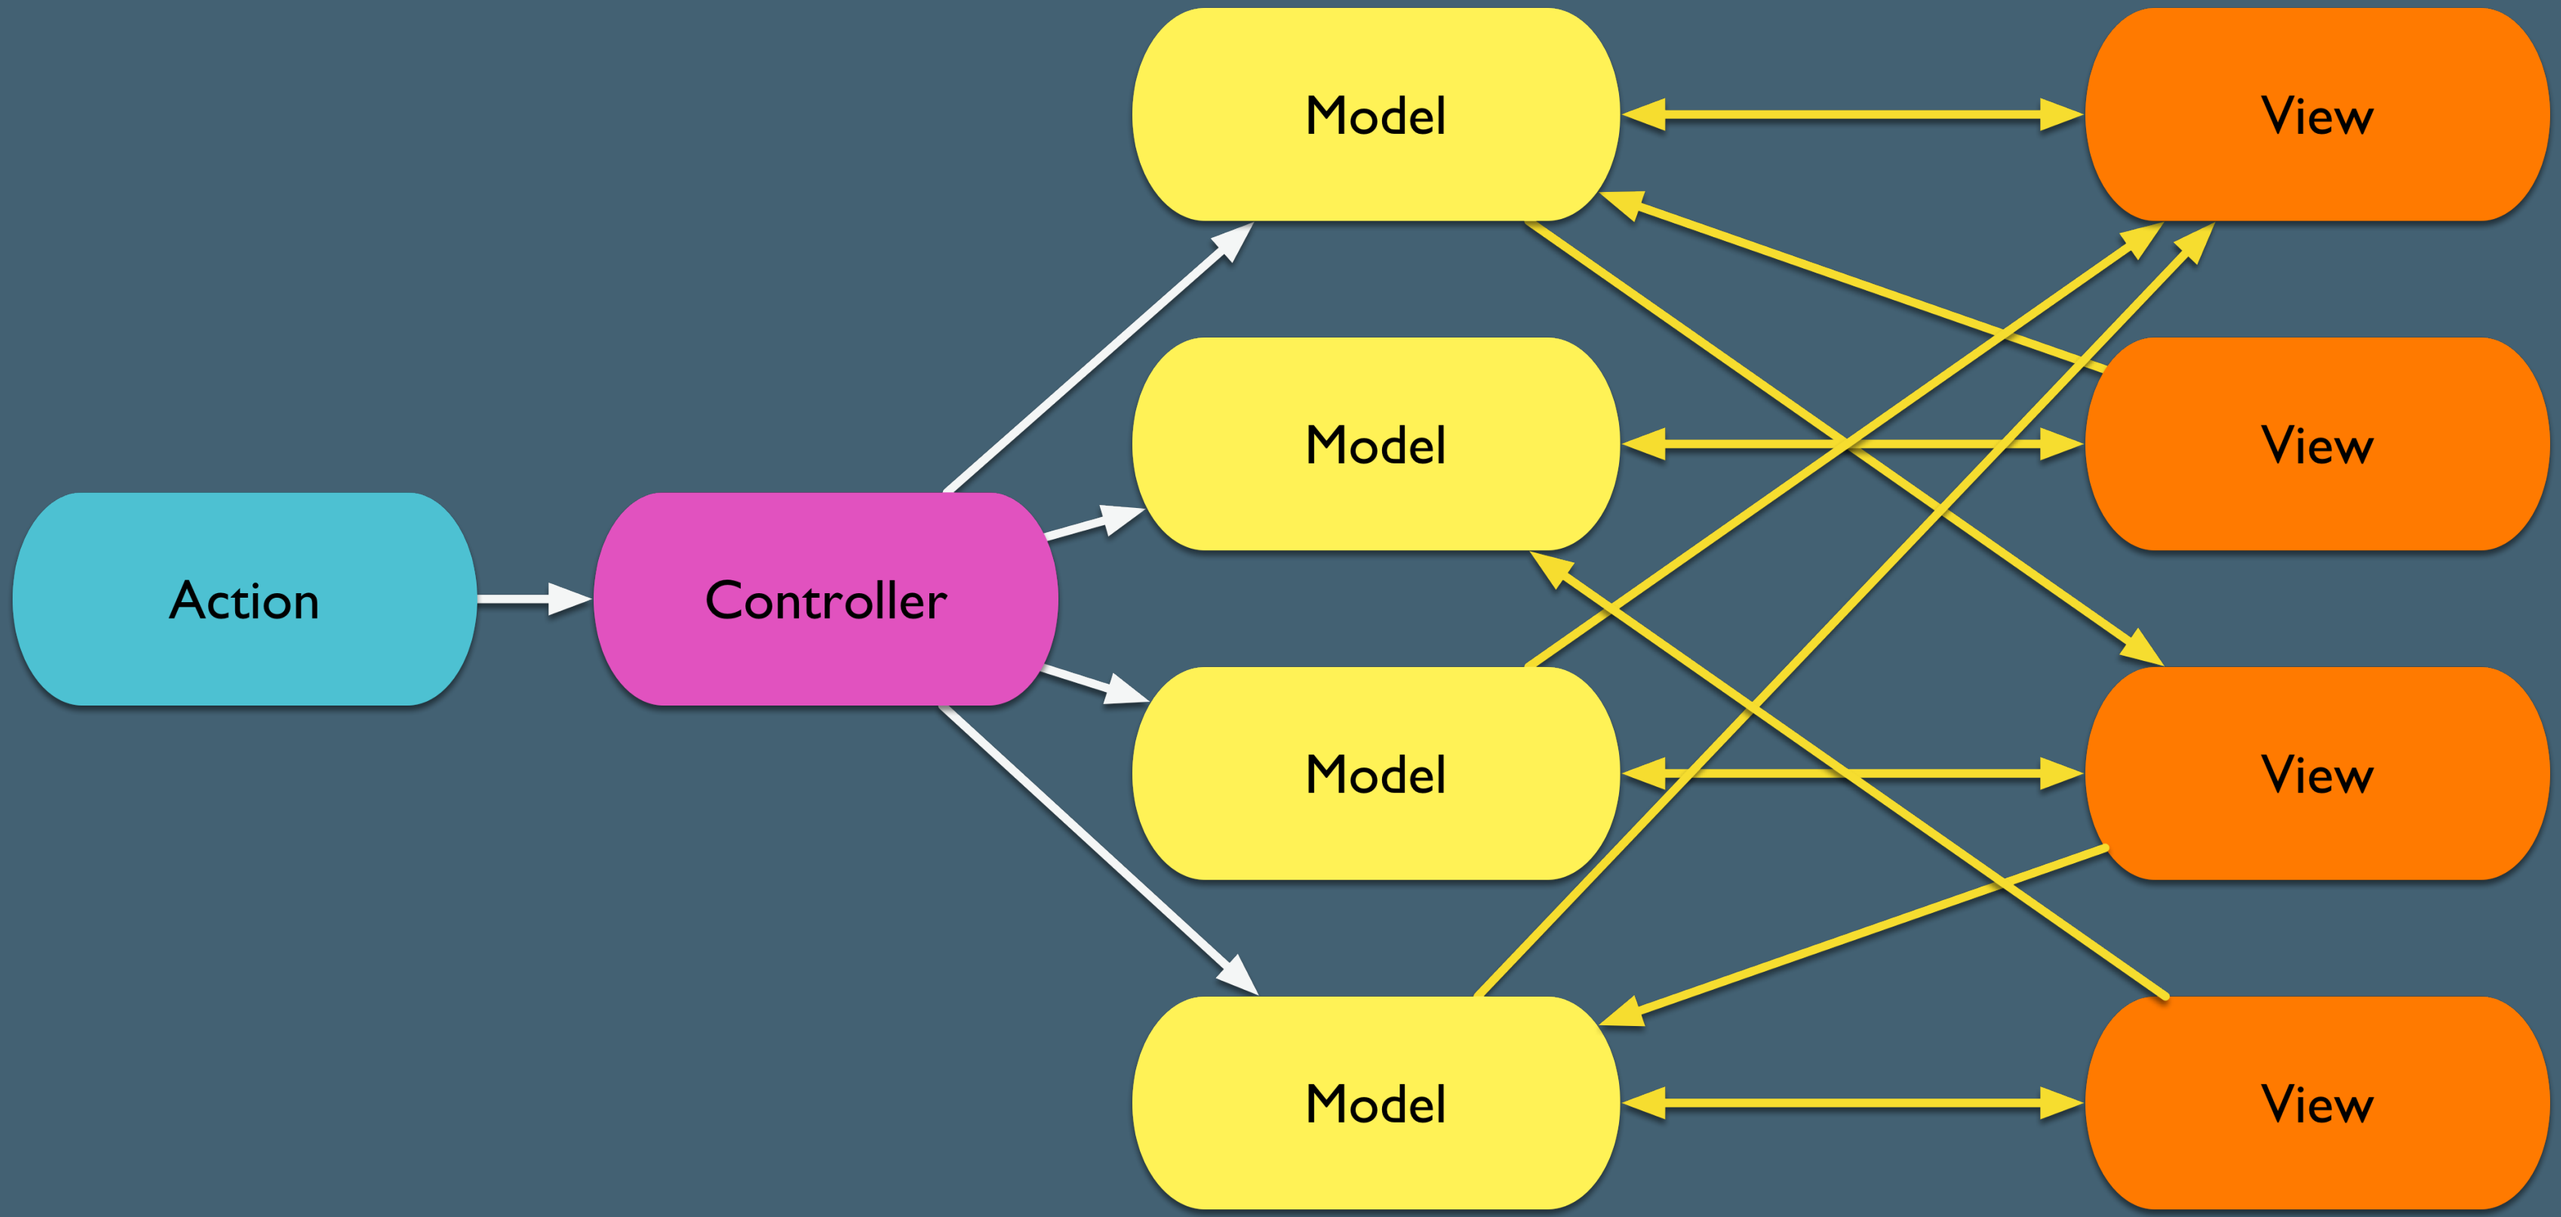
An Interactive Intro to Flux

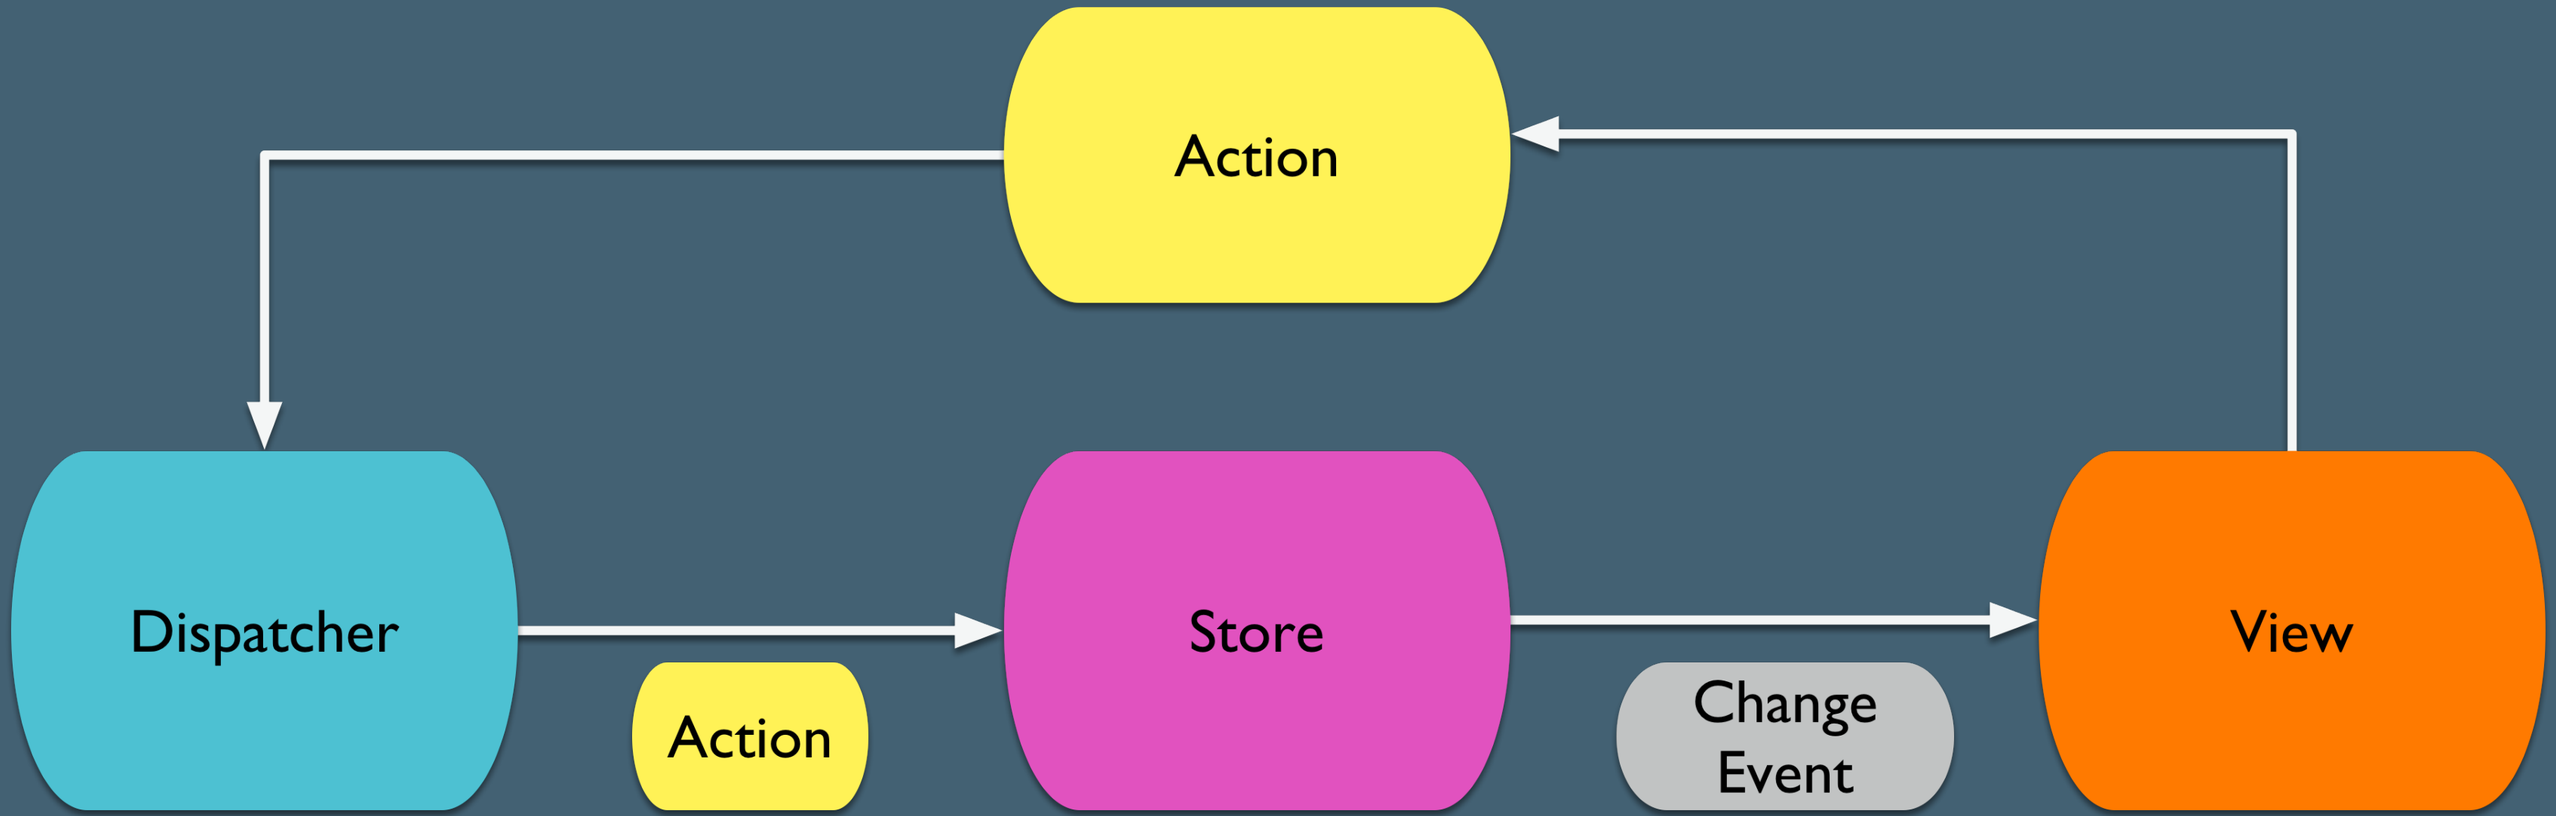
What is Flux?

» Pattern for building UIs in Web applications

» Born at Facebook due to issues with MVC



Source: Inspired by: "Hacker Way: Rethinking Web App Development at Facebook"



Action
Dispatcher
Action
Store
Change
Event
View

Implementing Flux on iOS

Each Feature consists of:

- State
- Actions
- Store
- Reactive View (redraws on state updates)
- View Controller

Goals for Today

» Learn Flux by implementing a simple version from scratch

» Refactor a simple app to use our Flux library

» Discuss!

» 🎉

You should be able to learn most important aspects of the Flux pattern in the next 2 hours!
